

Minimum System Specification

This document sets out the minimum network and system requirements needed to access and use the Immersive Labs platform.

1. Network and System Specification

- A. The latest (or penultimate) version of any of the following browsers Edge, Internet Explorer 11, Safari, Chrome and Firefox.
- B. Whilst an internet connection of any sort will allow the platform to work, a fast internet connection will ensure optimum use of the platform.
- C. If you are likely to have many concurrent Remote Desktop connections you may need to ensure your connection can cope. For example, 50-100 people concurrent connections require minimum 25Mb line. This is most likely to apply only if you are running some kind of organised event.
- D. Parts of our platform are optimised for mobile use, however most of our practical labs are only suitable for use on a desktop or laptop computer with a screen resolution of 1280 x 800 pixels and above.
- E. *.immersivelabs.online must be whitelisted in your firewall.
